

Food Waste

Always put food waste in the green biobags. When we have harvested the food waste for biogas, the residue will be used on the farmers' fields as natural fertiliser.

Glass

Empty jars, glass containers and bottles - whole or broken. Lids and labels can be left on. We make sure these are discarded and recycled separately.

Glass does not need to be completely clean – but please make sure jars are empty

Metal

Metal waste is valuable and easy to recycle - but must not contain electronics, oil or hazardous waste

Just rinse dirty metal in cold water

KOMMUNE

Cardboard & Paper

Cardboard and paper both go in the container.
If it is clean and dry it can be recycled.

Put cardboard and paper into your container loose - and not in a bag. Flatten and fold cardboard so it doesn't take up too much space.

KOMMUNE**

Residual Waste

Your residual waste is the leftover waste from your recycling. It is incinerated for the production of electricity and heat.

Please tie your bag with residual waste with a tight knot

Textile Waste

Do you have worn and outlived clothes and textiles?
You can recycle them as long as they are clean and dry.

**Donate usable
clothes and good
textiles at charity
deposit points**

Find a list of thrift stores and deposit points at roskilde.dk/tekstilaffald

Hazardous Waste

Sort and recycle your hazardous waste to avoid harming people, nature or the environment. This also includes batteries and small electronics

Larger household appliances must be taken to the recycling station or put out for bulky waste collection

Plastics and Food and Beverage Cartons

Plastic and food and beverage cartons go into the same container - they will be separated at the sorting plant.

Just put your plastics and food and beverage cartons directly into your container - not in a bag.
